PROFESSIONAL SUMMARY

Seasoned software professional with over 10 years of consolidated expertise designing and architecting applications, and orchestrating end-to-end production systems. Specialized in mobile and web development across React, React-Native, Node.js, and cloud platforms. Adept at crafting scalable, resilient architectures for global startups and enterprises.

TECHNICAL ARSENAL

Languages & Frameworks: JavaScript (ES6+), ReactJS, NextJS, React-Native, NodeJS, Android Native, HTML5, CSS3
Backend & Cloud: ExpressJS, FeathersJS, LoopBack, AWS Lambda, Google Cloud Functions, Firebase, MongoDB
Architecture & Engineering: System Architecture, Database Schema Design, Offline-First Sync, REST APIs, Scalability
Tooling & Leadership: Technical Leadership, Team Mentorship, Agile/Jira, Git, Chromecast SDK, Node-RED

PROFESSIONAL EXPERIENCE

Nagarro Software Pvt. Ltd. (Surat, India) - Associate Staff Engineer Sep 2021 - Present
- Transitioned from Senior Engineer to Associate Staff Engineer in Feb 2023, leading financial module architecture.
- Architected client profile evaluation engine utilizing React-Native, React, Node.js, and MongoDB for financial insights.
- Spearheaded technical decision-making, code reviews, and enterprise resilience across cross-functional engineering teams.

Maven Agency Pvt. Ltd. (Surat, India) - FullStack Developer Dec 2020 - Sep 2021
- Handled South Africa based enterprise client delivering conversational AI chatbots and user behavior telemetry.
- Led migration of client’s legacy systems into modern JavaScript frameworks, optimizing performance and delivery cycles.

Refrens Internet Pvt. Ltd. (Surat, India) - Product Engineer Mar 2020 - Nov 2020
- Owned and scaled core workflow engine for B2B platform managing invoices, expenditures, and quotation lifecycle.
- Streamlined financial document generation speed and state synchronization for thousands of business users.

RONIT KADWANE - RESUME (Continued)

Logicwind (Surat, India) - FullStack Developer Jan 2016 - Feb 2020

- DigiQC: Built digital quality check mobile app, CMS, and server with location-radius geo-lock and full offline sync.
- Chromecast Games: Built arcade game controllers (sender/receiver) streaming real-time events to Chromecast devices.
- Video Streaming: Built apps for Joyce Meyer Ministries & PragerU with Brightcove/JWPlayer and offline caching.
- Los Alisos: Resident portal for unit booking, automated billing, and work orders using LoopBack, Node-RED, MongoDB.
- Contactbook: Engineered Gmail contact sharing and co-editing platform for Google Workspace teams.
- Native Bridges: Built custom native Android plugins for React-Native, Ionic, and Cordova; built AWS Lambda microservices.

Narola Infotech (P) LTD (Surat, India) - Software Engineer Jun 2015 - Sep 2015

- Developed cost calculation calculator mobile application for embroidery machines using native Android.
- Engineered UI modules and payment integration for native Android e-commerce application.

FEATURED PRODUCTION HIGHLIGHTS

- DigiQC (React-Native, FeathersJS, Node.js, MongoDB): Enterprise quality checks for architects with location radius lock.
- Chromecast Platform (React-Native, Chromecast SDK): Real-time interactive controllers with dynamic layout rendering.
- Financial Evaluation Module (React, React-Native, Node.js, MongoDB): Scalable financial insights engine at Nagarro.
- Contactbook (React, MobX, FeathersJS, MongoDB): Automated collaborative contact directory for G Suite teams.

EDUCATION

Sarvajanik College of Engineering & Technology (Surat, India) Jul 2011 - May 2015

Bachelor of Engineering (B.E.) in Computer Engineering | CGPA: 7.16 / 10.0

Core Courses: Data Structures, Algorithms, Distributed Systems, Database Management Systems, Software Engineering
